Seven games

Different ways to play.

Blackjack 21

Scratch at least two cards. Stop on a winning total or continue toward a higher result without exceeding 21.

Hold'em Poker

Scratch to form the highest five-card poker hand.

Scratch Poker

Choose two pocket cards, then selectively reveal the flop, turn and river to build the strongest hand.

Shooting Stars

Scratch nine fields. Three equal prize values win the corresponding amount.

Break The Safe

Progress through four code stages. At least one digit must match at each stage to continue toward the safe.

Triple Poker

Scratch nine cards. Three cards of the same rank or a qualifying straight create a win.

Triple Diamond

Match winning diamond combinations, with selected tickets carrying x2, x3, x5, x10 or x20 multipliers.
