

I am not willing to wait and see if even more legislation can make a difference. Below is my 7-point plan for protecting our community and, most importantly, our children:

1. Compliance checks following firearms owners license revocation.
2. Re-instatement of interdiction programs that have removed hundreds of unlawfully possessed firearms from our streets
3. Full-time task-forcing with our municipal police partners to identify and quickly eradicate armed felon activity
4. Range training sessions for concealed carry license holders taught by our staff
5. Gun safety classes open to the public and offered to our schools
6. Optional gun registration program for our citizens to allow faster tracking of lost or stolen firearms
7. Deputy liaisons to network with local firearm dealers
