

Scottish Heritage USA

For over 60 years, Scottish Heritage USA has been working to help preserve and protect the places and stories that keep Scotland's spirit alive.

As a proud partner of The National Trust for Scotland Foundation USA, the organization has contributed more than \$1.6 million to projects like the Culloden Visitor Centre, the Burns Library Project, the restoration of Hill House and rebuilding on St. Kilda's. Members have a role in protecting cultural landmarks while enjoying special benefits, sponsoring cultural programs, youth scholarship support and complimentary entry to over 100 NTS sites across Scotland and beyond. As Scottish Heritage USA embarks on a new decade of challenges and opportunities, our members appreciate this lasting and rewarding way to give back to the heritage they love while staying connected to it year-round.
