

All staff are interviewed and have background checks and extensive personal references. Staff also receive a full week of in-camp training before campers arrive. Camp policies and procedures ensure the health and safety of everyone who enters our gates.

CAMP SERTOMA

For children 7-13 years old
deaf/hard of hearing
speech-impaired and
disadvantaged/deserving children

ABOUT THE PROGRAM

Camp Sertoma offers opportunities for new and fun experiences in a residential camp setting. This professionally planned program has been developed over 50 years to meet the unique needs, interests and abilities of each child.

OUR MISSION is to nourish the minds and bodies of our youth by providing challenging, meaningful and memorable experiences in a physically and emotionally safe environment through camping, aquatics and relationships, thereby strengthening their capacity for leadership, teamwork, perseverance and understanding of and love for others.

Campers also enjoy group activities such as capture the flag, pool parties, and all-camp treasure hunts, offering evening adventures throughout the week. New experiences and getting to know others in a safe environment leads campers to a growing awareness of the value of each individual and their unique talents. Through this process of discovery, children find at Camp Sertoma a warm, loving environment in which they can open their hearts and minds to personal growth and increased confidence.

HEALTH AND SAFETY

Camp Sertoma meets and exceeds the rigorous standards set forth by the American Camp Association. Waterfront staff are certified and trained to ensure our instructional and recreational swimming and boating activities are safe and fun. There is a 24-hour on-site Registered Nurse to help with anything from scrapes and bruises to complete supervision of medication given at breakfast, lunch, dinner and bedtime.

LIFE AT CAMP

Canoeing, sailing, swimming, archery, high ropes course, lake play, water trampoline, water slide, arts and crafts, pontoon boat rides, kayaking, fishing, overnight camping, hiking.
