Water Solubles

Water Solubles ATP provides the most complete, highest-grade NPK based water-soluble foliar fertilizers in the industry. Backed by over 20 years of usage, these low-salt index products can be used to address nutrient deficiencies through either a foliar or irrigation application.

- Easy to dissolve formulations
- Nutrient specific formulations
- Can be used at all times throughout the growing season, for all crops
- Ideal for both foliar ground and aerial application, along with fertigation
- Compatible with most ATP products*

K NUTRITION = DELIVERS GENETIC POTENTIAL

*Gainer K applied at 2 kg/ac at the R1 Stage.
Manitoba Demonstration Trials, 2013.
Sodium Molybdate; Analysis 39.6% Mo; Rate .02 (20 g/ac); Foliar*

Water Solubles Product Family

Product	Analysis	Rate (kg/ac)**	Timing
Gainer NPK	20-20-20-0.1Fe-0.05Zn-0.05Cu-0.05Mn-0.02B-0.0005Mo	1.0-2.25	Foliar
Gainer NPKII	15-20-20-2S-1.0Zn-0.10Mn-0.08B-0.15Cu-0.10Fe-0.0005Mo	1.0-2.25	Foliar
Gainer P	10-45-10-3S-0.05Zn-0.05Mn-0.02B-0.05Cu-0.10Fe-0.0005Mo	1.0-2.25	Foliar
Gainer K	10-16-38-0.15Zn-0.15Fe-0.05Cu-0.05Mn-0.02B-0.0005Mo	1.0-2.25	Foliar
MKP	0-52-34	1.0-2.25	Foliar
Epsotop	13S-10Mg	1.0-2.25	Foliar
Sodium Molybdate	39.6% Mo	0.02 (20 g/ac)	Foliar

*Refer to the compatibility charts at chemtrition.com.

**Tissue test is required to determine the optimum application rate.
