

Precision Esthetics Dental Laboratory | Achim Michael Renner

FAST FACTS

Office: State-of-the-art, 8,000-square-foot headquarters and laboratory

Commute to Work: 10 minutes by bike, and two minutes by car, from the home I bought on Flagler 20 years ago

When clients or family visit, I take them: Boating—it's a great way to show them the Florida lifestyle

Employees: 70 and continually growing

West Palm Beach: The Place for Perfect Smiles

“

I always was attracted not only to the U.S., but to the benefits of Florida,” said the Germany native. “I enjoy coming to work every day.”

To Achim Michael Renner, there’s no better place to grow his industry-leading, full-service dental laboratory than Palm Beach County. And he has the success and smiles to prove his point.

From Precision Esthetics Dental Laboratory’s 8,000-square-foot West Palm Beach company headquarters and state-of-the-art teaching and technology center, Renner’s team of master dental technicians and specialists have deployed a unique combination of his entrepreneurial vision, European craftsmanship and made-in-America quality, combined with world-class customer service, to deliver some 350,000 implant cases for more than 1,250 dental practices nationwide.

The company’s founder and CEO traces his career back 40 years. After graduating from the esteemed Misch Institute and performing an extensive internship in Germany, Renner was recruited in 1989 to work with a respected dental lab in Peoria, Illinois. In 1998, he took over its two South Florida sites.

Success followed. He grew the operation by 50 percent in the first few years. Since opening the new facility in 2021, business has almost tripled.

With AI precision and computer machining touched by skilled hand-craftsmanship, his team of 70 accomplishes the work of 500. An eager mentor, Renner has shared his insights at more than 900 lectures globally on dental implants and esthetic dentistry.

In the 35 years since he arrived, the region has become a year-round work and lifestyle destination. He’ll host team and client lunches outdoors, showing off his business as much as the South Florida climate.

“I always was attracted not only to the U.S., but to the benefits of Florida,” said the Germany native. “I enjoy coming to work every day.” ●
