

Diana Treinen

Diana was raised in the heartland of Indiana. After graduating from Indiana University, she moved to Denver and worked several years in the insurance industry before finding a home at Colorado Lending Source. As part of the Finance and Administration team, she facilitates loan disbursements and oversees fund management for the direct loan programs. Diana manages the payment tracking and reporting for a direct lending pool of more than \$12 million. After all the hard work that goes into approving and closing loans, Diana finds it most rewarding to see small business borrowers get the capital they need to succeed.
