

PH Program

Dr. David Brian Wesley, PhD, has provided all the information below

"Any prolonged imbalance in any area of life will eventually manifest itself in the form of pain and/or dysfunction in the physical body..." Brian Wesley, Ph.D.

PH is the hottest new thing in alternative health! Yet, it is old and basic! Knowing and monitoring pH gives you the power to make changes in your body's systems acidity/alkalinity. This may result in:

- 1) Helping to decrease the possibility of degenerative disease.
- 2) Reversing the signs of aging.
- 3) Reducing weight (and keeping it off),
- 4) Increasing nutrient assimilation from food and supplements.

The BIO pH Program has simple information and tools to greatly improve health, affordably. Better yet, it is not something you have to buy over and over every month. The information is timeless and simple. The pH paper is inexpensive and can last for months. This program does not eliminate the use of some supplements. The recommended ones are basically foods. which this society over the last 50-60 years reduced and eliminated from our diets.

This is probably one of the most valuable additions to any home health cabinet, library or kitchen! It can help change your quality of life! 90% of the people who use this program eliminate the effects of stress and fatigue. and have stronger immune systems, etc...

14 years ago, the average persons' pH was 6.0. Now the average is way below that and degenerative diseases are on the rise. Do you know your pH???

This is the hottest pH balancing program on the market today!

The BIO pH Kit shows you how to utilize the physical environment and physical body to balance your pH! (Includes pH paper to get you started!)

Reduce the effects of all types of stress and do it SIMPLY!

Measure the body's imbalance and/or the effects of this imbalance using the pH paper. See if your pH is balanced, too acidic, or too alkaline.

Isn't it great to finally be able to have some control over your own health and be able to monitor your progress in the convenience of your own home, simply and affordably?
