

Join ENUMA as a Senior IT GRC Consultant

Location: Podgorica, Montenegro (On-site)

Posting period: 18 January 2024 – 31 January 2024

Overview

We are in search of IT Governance, Risk, and Compliance experts eager to support our clients in the financial sector. If you have relevant experience and are looking for a rewarding consulting career with a commitment to client-focused excellence, we'd love to hear from you.

If you are interested in the mentioned position and meet the requirements, **please submit your application via LinkedIn or email your CV to jobs@enuma.me, no later than 31 January 2024.**

Responsibilities:

- Collaborate closely with client to develop and implement comprehensive IT policies and procedures in alignment with relevant laws, regulations, and standards.
- Monitor and assess IT compliance across client operations, actively supporting audit teams during evaluations.
- Deliver regular status reports to senior management, providing insights into compliance and continuity progress.
- Assess and manage IT and IT third-party related risks across client operations.
- Undertake risk assessments of outsourcing arrangements, adhering to pertinent laws and regulations.
- Regularly monitor and communicate technology risks to senior management within established reporting structures.
- Foster seamless collaboration with other risk management teams, particularly operational risk, to ensure comprehensive risk identification and management.
- Support IT Business Continuity Management processes by coordinating preparation of BIAs, BCPs and testing.
- Support planning and managing IT projects, ensuring they are completed on time and within budget.

Requirements:

- Bachelor's or Master's degree in Computer Science, Information Technology, or related field.
- Minimum 3 years of experience in operational business or management consulting with a focus on IT governance, risk management, compliance, and business continuity. Experience in banking and other highly regulated industries is preferred.
- Solid grasp of applicable regulations and industry standards such as ISO and frameworks like ITIL. Familiarity with EBA guidelines and DORA in this area is a plus.
- Proven track record of successful project management in a fast-paced, dynamic environment.
- Exceptional analytical and problem-solving skills.
- Customer-centric communication skills.
- Ability to work both independently and collaboratively as part of a team.
- Advanced proficiency in Microsoft Office, including Excel, Word, PowerPoint, and Teams.
- Fluent in both written and spoken English.
