

## REQUIRED IMMUNIZATIONS

The following items are required of students while participating in clinicals at EMTC  
Please specify dates.

1. TB Evaluation (tuberculosis)
  - a. Negative PPD within 1 (one) year, or
  - b. Positive PPD with negative chest X-ray, or
  - c. History of a positive PPD with a negative chest X-ray and treatment with appropriate anti-tubercular drugs or
  - d. Physician instructions about alternative treatment
2. Rubella (German measles) – Persons under the age of 45 must demonstrate:
  - a. A positive Rubella Titer (greater than 10) or
  - b. Two doses of MMR after 15 months of age
  - c. A physician diagnosed history of Rubella (indicate date of illness)
3. Rubeola (Hard or American Measles)
  - a. Born prior to 1957, or
  - b. Physician diagnosed history of rubeola (indicate date of illness), or
  - c. Two doses of vaccine after 15 months of age
4. Varicella Zoster (Chicken Pox)
  - a. A positive history of chicken pox (include date of illness), or
  - b. If no history of chicken pox, obtain a varicella zoster titer
  - c. If the titer indicates no immunity, complete the immunization series for varicella zoster
5. Hepatitis B Vaccine
  - a. Received 3 doses of Hepatitis B vaccine, and a positive hep B SA6 titer
  - b. In the process of completing the series of 3 doses, or
  - c. A signed declination statement
6. Immunization status should be readily available in the clinical setting.
7. It is also strongly recommended that all students and faculty have health care insurance coverage. Students and faculty assume financial responsibility for their own medical care.
8. Influenza Vaccine
  - a. Received the current year of influenza vaccine
  - b. A signed declination statement
9. Mumps
  - a. Born prior to 1957, or
  - b. Physician diagnosed history of rubeola (indicate date of illness), or
  - c. Two doses of vaccine after 15 months of age
