

THE #1 COMMERCIAL IGUANA TRAP SOLUTION

IGGYTRAP™ Designed Specifically to Stop the Spread of Invasive Iguanas

The Advantages of IggyTrap™:

- Catches dozens of Iguanas in a single unit
- Designed to catch iguanas of all sizes
- Traps juvenile Iguanas well before they're ready to reproduce, reducing the "breeding population"
- Quiet operation and camouflaged for optimum discreetness
- No on-site euthanasia
- Traps ONLY Iguanas - no "non-target" animal captures
- Commercial construction for years of performance
- Designed for temporary or semi-permanent installation offering 24/7/365 operation

IGGYTRAP™
Florida's Iguana Solution

SCAN FOR SERVICES

IggyTrap™ is the pioneer in multi-capture trapping that captures dozens of Iguanas without allowing other "non-target" animals to enter, such as raccoon or opossum. Inspected and serviced in compliance with all FWC regulations, IggyTrap™ leads in innovation, performance, and cost efficiency.

*Patent Pending

PERFECT FOR COMMERCIAL APPLICATIONS AND PROPERTIES:
GOLF COURSES, NATURE PRESERVES, PARKS, RECREATIONAL FACILITIES,
HOA COMMUNITIES, APARTMENT COMPLEXES, INDUSTRIAL BUILDINGS

IGGYTRAP™ Designed for Maximum Performance To Manage and Stop the Spread of Invasive Iguanas

Multi Trap Design for Semi-Permanent or Temporary Installation with 24/365 Operation

IggyTrap™ is a Patent Pending, modular design allowing for multiple trap configurations to accommodate any property. IggyTrap™ will capture dozens upon dozens of iguanas at a time, making it the most economical and effective method for managing the ever-growing iguana population.

One of the key design features of the IggyTrap™ is it is installed on a semi-permanent basis. This allows the trap to actively trap iguanas 24/7/365 before they have a chance to do any damage to your property. When the trap is serviced, the holding compartment is simply exchanged out, taking only a few moments to complete so to minimize any disturbance to patrons.

IggyTrap™ – The Humane Solution to Trapping Iguanas

- Water access for trapped iguanas
- Limited handling during transportation
- No on-site handling or euthanasia
- Quick on-site servicing
- Maintains continuous operation of main trap.
- Locking ground anchors to secure the trap from weather or theft, if necessary
- Continuous operation of main trap

Camouflage Netting Blends the IggyTrap™ Into the Environment and Helps Conceal the Trap When Necessary

Captures Dozens of Iguanas at a Time...
Depending on Their Size!

Let IggyTrap™ Develop an Effective Mitigation Program for You Today!

Florida needs a innovative solution that can be deployed on a major scale that will significantly reduce the Iguana population. IggyTrap™ was designed to:

- Active 24/7/365
- Captures ONLY Iguanas
- Inspected in accordance with FWC regulations
- Easy to Service
- Meets FWC Regulations
- Monthly Land Surveys
- Direct Line of Communication
