How did you get started in medical staff services?

I started as a receptionist for a cardiology group practice and began helping providers complete applications for medical staff privileges. I was hooked!

What do you enjoy most about your role?

It never gets boring. I’ve worn many hats during my career as an MSP and enjoy the diversity and knowing I am helping patients and providers.

What’s a professional accomplishment you’re proud of?

My role as AAMSS Education Committee Chair from 2015 – 2019 and organizing conference to help further the education in the field. Also, before credentialing software, I created a database with all provider information and documentation.

How has AAMSS supported your career?

I have been able to network and meet mentors in my field, get answers to questions and keep relevant with changes in the field.

What do you like to do outside of work?

Read, gardening and crafting.

Both – coffee in the morning and hot or cold tea in the afternoon, depending on the weather.

I used to have a Craft/Florist shop before I moved to Arizona
