FACES OF AAMSS

AAMSS Proudly Highlights one of our dedicated leaders and long-time contributors to the MSP community!

Rosa Quimson, CPMSM, CPCS, CPES

Organization: La Palma Intercommunity Hospital (Prime Hlth)

Role: Medical Staff Coordinator II

Years in MSP Field: 10 years

How did you get started in medical staff services? By sheer luck, actually. I was working for a health plan in the Grievance and Appeals Department when I ran into a manager I had worked for in the past. She told me about an open position she had and felt I could quickly learn the role, given our prior working relationship. I had never heard of a Medical Staff Professional, but the more I learned, the more I fell in love with the profession.

What's a professional accomplishment you're proud of? Obtaining my CPCS certification after struggling to earn it twice before. As hard as the exam was, I was determined to pass—and I did!

What is one challenge in credentialing/privileging/provider enrollment/onboarding that keeps things interesting? In credentialing, one ongoing challenge is researching and obtaining verifications when the information isn't available through the credentialing software. In provider enrollment, the constant follow ups keep things interesting—confirming receipt of applications, checking in network status, and occasionally seeing a provider appear out of network even after receiving an effective date.

Help us celebrate Rosa in the comments! 🙌
