The Nature of the Chiropractic Adjustment:

The primary treatment used by Doctors of Chiropractic is spinal manipulative therapy and manipulation of other joints and soft tissues (muscle, tendon, lymph, etc.). I will use that procedure to treat you. I may use my hands or a mechanical instrument upon your body in such a way as to move your joints. That may cause an audible "pop" or "click", much as you have experienced when you "crack" your knuckles. You may feel a sense of movement.

Analysis / Examination / Treatment

As a part of the analysis, examination, and treatment, you are consenting to the following procedures:

- Spinal Manipulative Therapy (and manipulation of other joints and soft tissues)
- Palpation / Range of Motion Testing / Vital Signs / Orthopedic Testing / Basic Neurological Testing / Muscle Strength Testing / Postural and Gait Analysis Testing /
- Percussion/Vibration using a massage tool

Initial if you agree to all listed analysis, examination, and treatments: _

The Risks Inherent in Chiropractic Adjustments:

As with any healthcare procedure, there are certain complications that may arise during chiropractic manipulation and therapy. These complications include but are not limited to: fractures, disc injuries, dislocations, muscle strain, cervical myelopathy, and costovertebral strains and separations. Some types of manipulation of the neck have been associated with injuries to the arteries in the neck leading to or contributing to serious complications including stroke. Some patients will feel some stiffness and soreness following the first few days of treatment. The Doctor will make every reasonable effort during the examination to screen for contraindications to care: however, if you have a condition that would otherwise not come to the Doctor's attention, it is your responsibility to inform the Doctor.

The probability of those risks occurring:

Fractures are rare occurrences and generally result from some underlying weakness of the bone which we check for during the taking of your history and examination. If you have a history of Osteopenia or Osteoporosis, then the risk for fractures (especially rib fractures) does increase. Stroke and/or arterial dissection caused by chiropractic manipulation of the neck has been the subject of ongoing medical research and debate. The most current research on the topic is inconclusive as to a specific incidence of this complication occurring. If there is a causal relationship at all, it is extremely rare and remote. Unfortunately, there is no recognized screening procedure to identify patients with neck pain who are at risk of arterial stroke.

The availability and nature of other treatment options:

Other treatment options for your condition may include: self-administered over the counter analgesics, rest, medical care, prescription drugs such as anti-inflammatories/muscle relaxers/pain-killers, hospitalization, or surgery.

If you choose one of the above noted "other treatment" options, you should be aware that there are risks and benefits of such options and you may wish to discuss these with your primary medical physician.

The risks and dangers attendant to remaining untreated:

Remaining untreated may allow the formation of adhesions and reduce mobility which may set up a pain reaction further reducing mobility. Over time, this process may complicate treatment making it more difficult and less effective the longer it is postponed.

CONSENT TO TREATMENT (MINOR)

I hereby request and authorize Dr. V	Varney (or any other doctor	r in the office) to perform	diagnostic tests and
render chiropractic adjustments and other to	treatment to my minor son/	daughter or other minor	under my legal

Financial Policy

Patient Name: Date of Birth:

Thank you for choosing Varney Chiropractic for your wholistic healthcare provider. We are committed to your care and treatment. This financial policy is an important part of your care. We ask you to read and agree to the following policy so there are no misunderstandings.

Commercial Insurance

We are out-of-network with all commercial insurances. Upon request we will provide you with a statement so you can self-bill and collect any payments directly from your insurance company at out-of-network rates (if applicable to your individual policy). Payment from you is expected at the time of service.

Medicare:

We do accept National Government Services Medicare and Martin's Point Medicare. Medicare will only cover acute chiropractic spinal manipulation treatment. Any exams, deductibles, co-insurances, co-pays, extremity adjustments, therapies and maintenance/wellness care will be your responsibility as they are considered non-covered services.

Fees:

Below is an estimate by visit type:

New Patient (Total cost for 1st visit): \$100 - \$135 Re-Examination (Total cost for 1st visit): \$85 - \$120

Treatment Visits: \$50 - \$60

We accept cash, checks, Visa, Mastercard and Discover. Any returned check fees will be billed to your account.

Patients with a balance of \$100.00 will be required to make a payment on their account and make a payment arrangement before another appointment can be scheduled.

The same policy applies to members of a household where the household balance is \$200. If these balances have been reached, you may be required to pay at-time-of-service moving forward.

Missed Appointments

We request 24 hours notice to reschedule an appointment out of courtesy to other patients who are on our waiting list. 6 hours notice is required to reschedule or cancel an appointment. One missed/late cancel appointment is allowed free of charge per 365 days. If more than one occurs, each additional incident will incur a \$40 fee that will be added to your account. If you miss three (3) appointments without prior notification to our office, you may be dismissed from our practice.

Questions about this policy? Call Lori at 207-225-5949.

I have read and agree to abide by Varney Chiropractic's Financial Policy.
