## Follow-Up Email Template

Hi (name),

Thank you so much for sharing the information about "role" with me today. I really enjoyed meeting you and learning about "something you learnt", it's really exciting to see as I am passionate about "subject".

I thought our conversation about "subject" was "interesting, exciting, intriguing" and I read this this afternoon which I thought you'd like to see, it talks about "refer to previous subject" (attach an article of interest).

I felt very motivated and excited when I left our meeting because I can see "place of work" is a great place to work and your team sound hard-working and focused. The potential to progress is really engaging.

Please don't hesitate to get in touch if there's anything else I can provide to make your decision an easier one.

Yours sincerely,  
Name
