### **Addendum A**

1. Shipping terms and conditions. Breeding by Fresh cooled semen will be shipped according to the terms and conditions for cooled semen set forth in Addendum A and fully incorporated herein. Breeding provided by frozen semen will be **shipped** according to the terms and conditions for frozen semen set forth in Addendum B and fully incorporated herein, all other terms and conditions in Addendum A will still apply to frozen semen.
2. This is a live foal contract. A live foal is described as a newborn foal that stands and nurses without assistance for 72 hrs. If the foal will not stand and suck, and death occurs, the mare owner will be entitled to a return breeding the following year. An alternate mare may be substituted upon approval of the stallion owner. This guarantee does not include death from injury to the foal. The mare owner must pay any board, collection, shipping and/or veterinary charges if the mare returns for a re-breed. This guarantee will apply only if the stallion owner is notified within 7 days from the time of death of the foal. Mare owner agrees that stallion owner and/or manager do not make any guarantees as to the quality or conformation of the foal, nor that will the foal be free of any infirmity, conformation defect, disease, or inherited trait.
3. This contract is non-assignable and non-transferable.
4. In the event the stallion becomes unfit for service, dies, or is sold prior to impregnating the mare, frozen semen (if available) will be used to fulfill breeding commitments. There is no return of breeding fees or associated cost.
5. Stallion owner shall not issue breeders certificate to mare owner until after mare owner notifies stallion owner that mare has produced a live foal. Stallion owner shall not issue breeders certificate to mare owner until all outstanding debts, including vet fees associated with this breeding are paid.
6. If mare owner chooses to use the embryo transfer process, mare owner will pay a stud fee for each embryo produced. Breeding certificates will not be issued until stud fees are paid in full.
7. Due to an active competition schedule, cooled shipped semen will be available approx. the last week in April until the 1<sup>st</sup> week of June. Frozen semen will be available after that. Semen request will be filled in the order in which they are received. Every effort will be made to fill all orders. Shining C Ranch will not be held liable if the mare is missed due to a shortage of semen.
8. Mare owner agrees that semen may be used for the designated mare only. It is recommended that a thorough veterinary reproductive exam and normal uterine cytology and/ or uterine culture should be taken before commencing breeding. Mare must be inseminated by a licensed vet or

authorized technician the same day of delivery of semen and that proper methods of handling semen and preparing the mare must be used.

9. If at any time the mare owner wishes to substitute for another mare to fulfill the remainder of the contract or should the mare die or is found not to be in sound breeding condition, the mare owner may do so upon written approval from the stallion owner.

10. If the mare fails to settle for any reason, mare owner will hold stallion owner blameless. Mare owner agrees to give stallion owner ample time to settle the mare. A normal healthy mare should settle within 3 cycles.

11. Mare owner agrees to contact stallion owner by phone three (3) separate times for each cycle: A. When you or your vet detects the first day of heat for your mare. B. After your vet checks the mare to let us know when he/she first approximates the date of ovulation and when he/she wants semen collected. C. The day before semen is to be collected. *While we will give every effort to fill every order including 'same day request,' we cannot guarantee we will have enough semen available.*

12. Shining C Ranch shall not be responsible for the COSTS arising from shipments lost, damaged, or delayed in transit or condition of cooled or frozen shipped semen upon delivery. We have no control of the shipment after it leaves our custody. \_\_\_\_\_ Initial here.

13. The mare owner agrees to have the mare checked by ultrasound no later than 18 days after insemination. If ultrasound is unavailable, mare owner agrees to have the mare checked for pregnancy by licensed veterinarian within 30 days of insemination. Mare owner agrees to provide Shining C Ranch with the results of the pregnancy exam no later than 30 days after insemination and last breeding date.

14. It is the mare owner's responsibility to return a copy of the INSEMINATION RECORD, signed by administering Veterinarian or Breeding Facility Manager to Shining C Ranch. Mare owner is also responsible for blood typing or DNA testing their mare as per AQHA rule #209 or APHA rule RG-165.

15. Mare will not be put on a stallion breeding report unless all fees have been paid in full and last breeding date has been provided. It is the mare owner's responsibility to let us know by October 1<sup>st</sup>, 2022 of mare pregnancy status. If mare owner fails to advise, a \$50 late filing fee will be charged to mare owner to add said mare to breeding report.
