

ARTISTS UNITED, INC.

August 2026 NEWSLETTER

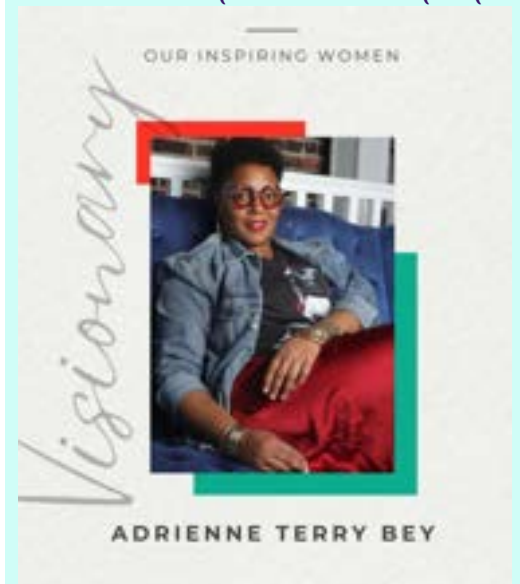

Adrienne is a visionary creative, cultural cultivator, and community builder whose work bridges artistry, agriculture, and advocacy. As the Founder and Creative Director of Thee Studio (formerly GH Designz Studio), Adrienne has cultivated a dynamic space where visual arts, education, and community engagement intersect. Thee Studio serves as both a creative hub and a transformative environment, empowering emerging artists, youth, and families to explore their gifts through intentional programming and artistic expression.

Beyond the canvas and classroom, Adrienne is also the Owner and Farmer of Alkhemi Farms, a purpose-driven agricultural initiative rooted in sustainability, food equity, and holistic wellness. Through Alkhemi Farms, she reconnects communities to the land—teaching cultivation, stewardship, and the alchemy of turning soil into sustenance.

Adrienne's leadership is grounded in faith, resilience, and a deep commitment to generational impact. As a mother, entrepreneur, mentor, and creative visionary, she embodies the spirit of Women's History Month—honoring legacy while building pathways for those who will follow.

Her work reflects a powerful truth: creativity is not confined to art—it lives in how we grow, how we teach, and how we nurture community. Adrienne is also a member of ARTISTS UNITED and serves on the Membership Committee.
