

Businesses run better with HR Shortcuts & Rippling

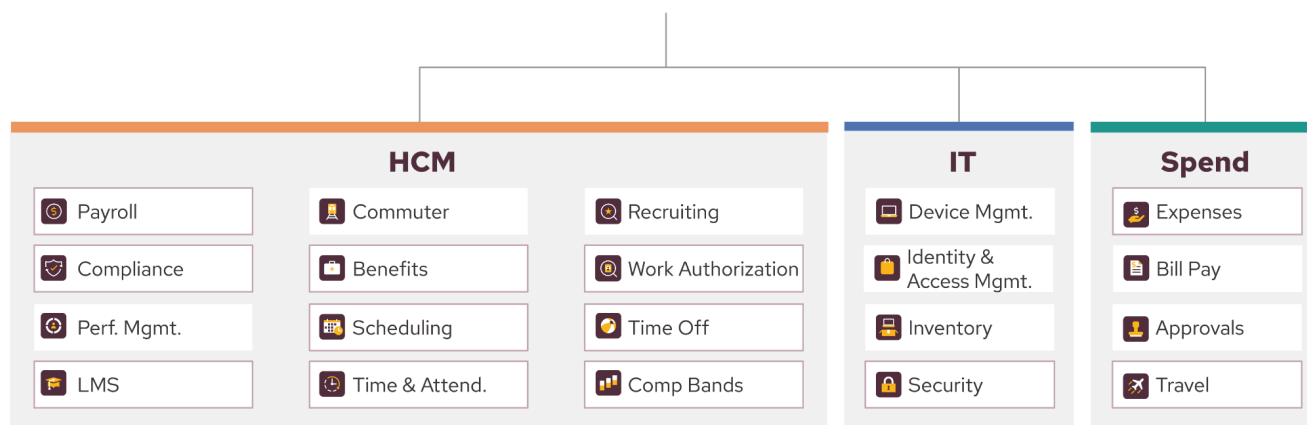

Rippling is the #1 rated workforce management platform that unifies all of your business systems like payroll, benefits, and recruiting. The result? Zero friction. Better execution.

One unified system—everything you need to manage a workforce

Rippling lets you manage and automate all of your people operations around the world *in one place*. For example, if you promote an employee and transfer them to a new location, Rippling automates all of the downstream effects—like processing changes to their benefits and updating their payroll. This frees up your team for more strategic work.

Sarah is promoted and moves from CA to NY
