

Your Medical Record Distribution

Effective 7/1/2014

Your entire medical record or any part needed may be faxed without charge to your new provider. You must first sign a written release and include the name and location, fax if possible, and we will include that form with the documents.

You may receive a secure copy of your medical record via pdf without charge by secure email. In general we will not resend you any records or documents you sent us, as you already have that. You do not need to sign a release for this, and there is no charge.

If you want paper copies, our printing capacity is very limited. We charge the NM state cost of \$30 for the first 15 pages and \$0.50 per page thereafter, gross receipts tax will be added. This will be collected prior to printing the record. Please call ahead so we can estimate the cost.
