# tieke CONNECT
Online Exam

Worldwide emergence of digital education is forcing institutions to transform their exam setups from the traditional pen and paper to digital online exams.

About Us

Tieke offers technology based digital solutions and content to institutions, with a vision to nurture students' CAREER and CHARACTER! Tieke Connect, is our comprehensive learning management system for institutions, that enables them to build engaging Courses, schedule-communicate-host Live classes and conduct Online Exams.

Question Formats

Supports various types of questions e.g., multiple choice, multiple response, fill in the blanks, true or false, image / video based questions, case study and simulation-based questions

Authoring & Auto Evaluation

Automates the testing process, including randomisation of question-and-answer options, weighting and marking schemes, and uploading completed exams by students

Provides an evaluation tool, creating mark sheets, generation of certificates, tabulation of the merit list and result analysis.
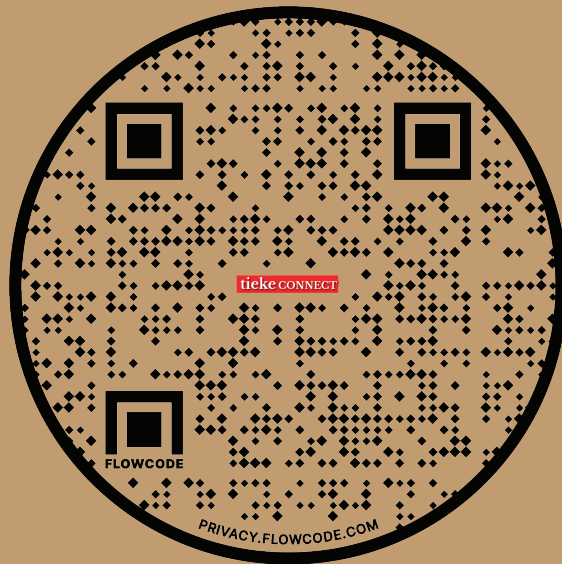

Secured Online Exam

Security management features include access restriction; dual authentication; encryption of test; securing the browser and restricting access from a specific IP address; tracking of IP address and login information; disabling copy and paste, right mouse click, print screen, special keys, and toolbar / menu bar in the test taker's browser.

Proctoring

Advanced video analytics monitors the feeds for any suspicious activity. It ensures candidate focuses on test screen during the test and checks for suspicious objects in video and background activities to red flag the test.
