

GOT COLD AGGULININ DISEASE?

WHO WE ARE

Cold Agglutinin Disease Foundation Inc, CAD Foundation was created in 2019 as a non-profit, (501)(c)(3) corporation.

CAD Foundation's purpose is to foster and increase public awareness and education regarding the diagnosis, management and treatment of this rare disease, which in turn will enhance the quality of life of those affected by this disease.

Our goal is to provide a continuously improving system of education, information and opportunities for those diagnosed or treating patients with CAD.

We serve as a hub of information, support and encouragement for patients and caregivers globally.

Our facebook.com group, CADdy CHATTER, an outgrowth of the website was created in 2009. It now has a worldwide membership of over 1.2K very caring CAD patients and caregivers who can directly communicate with each other regarding all aspects of CAD.

PEOPLE LIVING WITH CAD MAY EXPERIENCE SYMPTOMS LIKE:

FATIGUE
WEAKNESS
SHORTNESS OF BREATH
LIGHT-HEADEDNESS
CHEST PAIN
IRREGULAR HEARTBEAT
A BLUISH COLOR OR DISCOMFORT OF THE HANDS AND FEET

These symptoms may get worse if you have a compromised immune system or an infection, or if you're exposed to cold temperatures. The average age of onset for CAD is 58 years old, but it has been seen in patients as young as 30.

AND
INFORMATION

WHAT IS COLD
AGGLUTININ
DISEASE?

Cold Agglutinin Disease is a rare type of autoimmune hemolytic anemia (AIHA) in which the body's immune system mistakenly attacks and destroys its own red blood cells.
