for **DAVENPORT**

# WORKING TO MAKE A DIFFERENCE

## Vote GOLDING... He'd vote for you!

I'm Dan Golding, the Independent candidate for Davenport.

For 12 years I have represented you in Davenport as an Independent. Because of your support and my increasing votes every election, I have been able to keep the pressure on both Labor and Liberal Governments. While this has meant we have been able to get things done there is much more I could achieve as your local elected MP.

I'm raising a family and have lived in our electorate since birth, I'm a very proud father of three, aged 13, 9 and 1 who attend local public schools. I am a genuine true local and I was born at Flinder's Medical Centre, as were my daughters. I attended Aberfoyle Park schools and know the tools and equipment our community needs to better educate our children and to provide supportive opportunities and better public health outcomes.

My background is finance, hospitality, small business and civil construction. Throughout my life of living in our electorate and working with various groups and residents, I have developed strong links within the community. I have been involved with local kindy and I am also involved in my children's school community and governance. My work in the community has given me a deep understanding of the issues that resonate. I'm aware of the impacts to our businesses and wider community caused by the algae bloom and asbestos in our aged public school buildings. These impacts and disruptions continue to be felt by local families. I'll work towards providing support and to encourage community driven initiatives and will continue to advocate on behalf of you.

I'm against selling and privatising our states assets. I want to see changes that result in lower cost of living pressures, especially energy and water, reforms that will assist small business, and measures to improve the efficiency of the public sector, without frontline staff losses. I will be advocating improvements to schools, hospitals, roads, public transport and measures that help and support retirees and pensioners

I'm a determined, hardworking, and driven individual who feels strongly that to achieve a better SA we need a return to being Independent. I know the way we manage our state and environment today will have a huge impact on the future for us, and our children. Support me and make your voice heard, as we build a better, sustainable future together free of major parties putting party interests before the interests of the people of Davenport, and our great state.

I would love to hear from you about your concerns and how I can represent you fully and proactively in office.

Thanks, and remember to **VOTE GOLDING 1ST!**
