

New and exciting development for the 2025 Coldwell Banker COVID Cup...we are moving to live digital scoring! We will be using the free Squabbit app to enter hole scores in real time. A few things to note:

- At least one person on each team needs to click on the following link to download the app and connect to the tournament:
<https://app.squabbitgolf.com/tournament?inviteCode=LIYJPF>
- Make sure you are set up in the app sooner rather than later as we would like to have everyone ready to go before we meet on the first tee. Tournament messages will also likely be sent through the app.
- For those of you who have a Squabbit ID already, just use that and you should be good to go.
- THIS IS IMPORTANT...for everyone else, the exact spelling of your first and last name as shown on the current handicap sheet on the tournament website www.replaysucks.com must be correct / the way you want it before signing up in the app. If it is not, please let us know ASAP. You will use this name in creating your player profile / login.
- Once in the app you should be able to see your groupings and tee times. Scoring will open up before each 18 hole round of the tournament.
- Notes regarding the scoring app:
 - When you open the app, there are four tabs shown across the top: Home (where you are when opening the app), Leaderboard, Schedule and Activity.
 - The Leaderboard page shows the Overall or by round standings of the tournament which is a "Mixed" format, with Round 1 best ball, Round 2 scramble, and Round 3 alternate shot. The number of team skins won can also be seen by clicking the "Team Skins" button, either Overall or by Round.
 - The Schedule tab is where you will get to the scorecards for your foursome. Select the "Round 1" button at the top, find your group and click on the "Start round" button.
 - This will bring you to the GROSS scorecard for your foursome. GROSS scores MUST be entered in the app. The digital scoring will convert to NET scores based on your individual handicaps and the format of the round being played. If you click on the "Best ball 1" or "Best ball 2" buttons, that will show NET scores. If you try entering your GROSS score on the NET score pages, the app will automatically adjust what you enter by handicap.
 - We are using a shotgun start. If you are not starting on hole #1, after you play #9 for the first time you will be going to hole #10. You will play #1 as hole #1 the next time through.
 - The Activity tab is for posting messages or photos for the entire group to see.
 - You can go back and forth between Leaderboard, Schedule (scorecards) and Activity tabs at any time.
