

Since Tony Oxford made the decision to switch his fleet over to Vermeer equipment, he's seen a significant increase in productivity. "We do more per day than we did 5 years ago," said Oxford, who has owned South Lake Tree Service for over 23 years. Whether it's three jobs per day or 12, Oxford is confident that his eight-man crew, with the BC1500XL, S725TX and SC652 they are using, can get the job done efficiently.
