

**Built in Athens, Ohio
An Atlanta, Georgia Company**

**258 kwh
battery (UL)**

Horizon 1032 kWh Mobile Battery Charging System (ETL)

A High-Capacity, Grid-Free Mobile Charging Solution for Electric Trucks & Fleets

✓ Features:

- Massive 1032 kWh Energy Storage – Powers multiple electric trucks**
- Ultra-Fast DC Charging – Minimizes downtime with rapid charging**
- Mobile, deploy in a single parking spot – Deploy anywhere,**
- Plug in design, no licensing, no permanent structure needed**
- Scalable & Modular Design – Expandable for fleet growth**
- Weatherproof & Durable – Built for extreme outdoor conditions**
- Cost-Effective & Sustainable – Reduces grid dependency and operating costs**
- Seamless Integration – Compatible with various EV connectors**
- NEVI grant compliant**
