

REPORTS FROM THE FIELD

March 2025

UGANDA

Coordinator: Maate Yuubu

Project: WeRemnant Jraq Orphanage and School, Uganda

Update: Greetings in JESUS' Name, the month started well. The studying of pupils went well. We only had a few cases of some pupils getting sick. They were given medicine and now they are fine.

Accomplishments/Testimonies: Our key successes include the following. The security house at the WeRemnant farm is completed. There is great improvement in the academics of the orphans. The children received basic needs such as a mattress, clothes, shoes, sandals, and uniforms. There was also the provision of meals for the children.

Issues: We have the following issues: the school has no toilet, our classrooms are small, and the school needs more plastic chairs for the children to sit on.

Follow up: We managed to work hard and finish the security house at the WeRemnant farm. It was not easy due to lack of water in the community and we had to export water from town.

Next 90 Days: We need the construction of a school toilet.

Description of Pictures (l-r): Children receive their monthly feedings. People receive medications in Nyakahuhire.

NAMIBIA

Country Coordinator: Catherine Amoo

Project: JESUS Center Private School, Namibia

Update: All honor and glory to KING JESUS CHRIST. Our total number of vulnerable children is 28 out of 74 learners at the school.

Accomplishments: We lost two teachers who went to other schools; thankfully we were able to find replacements for them.

Testimony: We got a new Deputy Principal who is Christian. Things are running very smoothly. We managed to get two flats for the teachers; they are bigger and cheaper than the council houses.

Issues/Follow-up: We need land for the expansion of our school. I personally went to see the CEO of the town council; he asked us to write another letter requesting land for the school. I did this and will follow it up.

Next 90 Days: We elected a new school board. We shall meet within the 90 days on arising issues in the school.

Description of Picture: Children at the school grounds.

INDIA

Coordinator: Chantil Kolli

Project: WeRemnant Children's Orphanage, Andhra Pradesh, South India

Update: Glory to JESUS! This month we have served 25 children with food, education, and free shelter. We have also been teaching GOD's Word daily with Scripture and activities.

Accomplishments/Testimonies: Learning discipline is a great success for our children.

Issues: We are facing some local challenges regarding our Centre and are working towards relocating for better facilities for the children. Please pray for our children's health, as many of them have colds and coughs. Please keep our staff in your prayers as well.

Follow up: Medical facilities are much needed for our children, and transportation as well.

Description of Pictures: Children receive their monthly feedings.
