

### Sizing Chart for Stone Diameter and Width

Stone sizes in the listings describe the diameter first and the width of the stone second. For example; if the size says 14mm x 8mm the stone is 14mm in diameter and 8mm wide.

### Diameter Chart

Please note: Our smallest diameter stones are approximately 11mm while our largest can slightly exceed 20mm. The most common size is 14mm.

### Width Chart

Each Line Represent 1mm. Our stones range in thickness from 4.5mm to 20+mm. So the 1 represents 10mm and the 2 represents 20mm. Our average thickness of stones is 8mm.
