

## MODEL O LIVING ROOM GRAND

The largest of the “small grands,” the Model O offers remarkable depth and resonance, yet requires less space than full-sized grands.

This 5'10<sup>3</sup>/<sub>4</sub>" (180 cm) grand piano has been a source of joy and inspiration since the very early 1900s. Its sound is particularly warm and rich—far beyond what one would expect from a grand piano that is under 6 feet in length.
