**Please Note:**

Columbia Forest Products: Scaling done on the International Log Rule.

**Y & W Birch** = Yellow and White Birch

### GENERAL LOG SCALING RULES

1. Logs will be scaled with the International Log Rule.
2. Logs not meeting the within specifications will be culled. Cull logs must be removed from the mill yard within 10 days, otherwise the mill will dispose of them without recourse.
3. Proper scale deductions will be made for sweep.
4. Logs received and scaled at the mill by Friday noon payment will be mailed Tuesday. Logs scaled after noon on Friday will be paid the following Tuesday.
5. If you have not delivered logs to us for several months please check with the buyers for up to date species, grade, and price card. Also please check with the office to make sure the correct mailing address is on file.

### DEFECT DESCRIPTION

- 2" – 3" Sound Knot – One Defect
- Larger Sound Knots – one or more defects depending on log size and quality. Other knots will be graded as they affect quality of the log.
- A three foot tight seam is acceptable in birch.
- Burls, swells, cat faces, dote, checking, shake, worm track, mineral, grubs and spiral grain are defects and will be graded as they affect the value of the log.
- Two defects in a straight line will be graded as a one defect log.
- No sweep in 9", 10", 11" log.
- No butt swell or excessive flare.
- In logs 12" to 14" in diameter, 1 1/2" of sweep will be allowed. In logs 15" and over, 3" sweep is acceptable. Necessary scale deductions will be made.
- All logs not meeting lengths specified will be cut back to next acceptable length. Need to have full 5" trim.
- Length of logs will be measured from top of scarf.
