Please Note:

Columbia Forest Products: Scaling done on the International Log Rule.

Y & W Birch = Yellow and White Birch

GENERAL LOG SCALING RULES

1. Logs will be scaled with the International Log Rule.
2. Logs not meeting the within specifications will be culled. Cull logs must be removed from the mill yard within 10 days, otherwise the mill will dispose of them without recourse.
3. Proper scale deductions will be made for sweep.
4. Logs received and scaled at the mill by Friday noon payment will be mailed Tuesday. Logs scaled after noon on Friday will be paid the following Tuesday.
5. If you have not delivered logs to us for several months please check with the buyers for up to date species, grade, and price card. Also please check with the office to make sure the correct mailing address is on file.

DEFECT DESCRIPTION

- 2" – 3" Sound Knot – One Defect
- Larger Sound Knots – one or more defects depending on log size and quality. Other knots will be graded as they affect quality of the log.
- A three foot tight seam is acceptable in birch.
- Burls, swells, cat faces, dote, checking, shake, worm track, mineral, grubs and spiral grain are defects and will be graded as they affect the value of the log.
- Two defects in a straight line will be graded as a one defect log.
- No sweep in 9", 10", 11" log.
- No butt swell or excessive flare.
- In logs 12" to 14" in diameter, 1 1/2" of sweep will be allowed. In logs 15" and over, 3" sweep is acceptable. Necessary scale deductions will be made.
- All logs not meeting lengths specified will be cut back to next acceptable length. Need to have full 5" trim.
- Length of logs will be measured from top of scarf.

Please Note:

Message From They would like 10" logs and up exclusively. Small trailers with a dump are to ask where to unload. Small

Garant Mill: trailers that need to be unloaded please put two 2 x 4's together to separate the logs and have some clearance on the side for the crane to unload without damaging the trailer.

(MAX 15% Yellow Birch)

PLUS TRUCKING

11/02/22 MESSAGE FROM THORHAMMER VENEER INC:

To simplify specs for slasher and harvester operators, our spec is now 10" top and 9 foot log - much easier to remember. We can and will still take a 9" log, but 7's and 8's will be scaled and sorted as sawlogs or firewood and paid accordingly as a grade 4 log.

The poplar market has been very volatile as of late, and therefore we will be watching the markets closely and likely adjusting our receiving schedule accordingly. Therefore, kindly mention to you harvesters and woodlot wonders to call first to check if we are still receiving poplar loads as we head into winter.

We have also adjusted our trucking rates to reflect the recent increase in diesel fuel and reduced trucking zone distances. Please also refer to sheet 2 of our spec sheet for delivery rates. remember - ThorHammer lists log prices roadside, and trucking rates are not included as others may do - so be sure your producers are comparing apples to apples.

Hemlock and Red Pine Market

Mill Price After Levy of 2.2%

Mill	Location	Species	Product	Mill Price	\$	Unit of Measure
