NETHER GREEN FC 2024/25

INFORMATION ABOUT US

How Macron Sports Hub Wakefield operate:

A Macron representative will meet with the club to discuss a potential partnership and kit/teamwear requirements. Samples and catalogues will be used for the club to select a range from. A club brochure of the choices selected will be built and priced and a kit design will be made for the club to approve. Tweaks can be made until the club are happy with the end result and a final off field range has been decided on. Following this, we will create an order form with the selected items to be used going forward. Along with this, an online club shop will be built for managers/players/supporters to order from as an alternative to the order forms. Sizing samples are available on request which we would advise on using before placing any orders. Once an order is placed with us, this will then be ordered into our store from our warehouses in Italy. This is shipped to us in around 5 to 6 days and will then go into a queue for decoration. All decoration is done in house using our state-of-the-art embroidery and print machines. Once this process is done, you will be notified that your order is ready to collect or be shipped out to you directly.

Custom Orders:

Should you choose to go down the route of a custom kit design, this can be built using our MMK app from the templates and colours available. For a completely bespoke kit, your Macron representative will be able to build your design to your requirements for you to approve and sign off. Once a design is signed off and ordered, this will then be made in our factories in Portugal or Bulgaria and then shipped to us ready for collection/delivery.

Stock & Availability:

We have access to a live stock ordering system which we use to check stock availability. At the minute, Macron has over 7 million pieces of stock currently available. Our current stock levels are the highest they have ever been following the opening of our new warehouse in 2021. Stock levels can be provided on any item at your request. If an items ever goes out of stock, we can view the replenishment dates which is normally no longer than 4 weeks. Each item has a shelf life of 3-4 years until it will be no longer replenished and will eventually be discontinued. If an item is nearing the end of its shelf life, you will be notified before choosing this product and advised on an alternative. Custom kit orders are made from your requirements which means these are a non-stock item.

Leadtime:

Our lead time on decorated items from our catalogue will range from 2-3 weeks in the off season (January – June) and can increase to 3-4 weeks in our peak season (June-December) For any custom kit orders our lead time is 8 weeks. Please note, this is from when an order is finalised and not from the start of the kit being designed/built.

Returns & Exchanges:

When placing an order, it is your responsibility to ensure that the correct sizes and quantities are ordered. Sizing samples are available to collect from store free of charge. No personalised items (this included embroidery or printing) can be exchanged or returned unless goods are faulty. All products must be returned in their original condition for our inspection.

HOME KIT

Nether Green FC

SPECTRUM SHIRT GRE/BLK JR £22.00 SR £26.40
