FAA CRS # 5WOR562D / EASA.145.6918

Southwest Aerospace Technologies (S.W.A.T) is a FAA, EASA, TCCA 145 Repair Station with a Limited Airframe, Accessories, Engine and Propeller Ratings. While we specialize in the Corporate Jet Market, this does not limit our maintenance capabilities. We are able to meet needs in the U.S. and internationally.

We are an OEM preferred provider of parts, components and maintenance. We are also a Northrop Grumman Authorized Support Organization. We currently support many programs such as BACN and SEMA, to name a few.

We are an ICON A5 Authorized Full Service Center, located in Georgetown, Texas (KGTU). This location allows us to support all ICON models, as well as most other aircraft types. We can support all on call and AOG situations.
