

**The SWAT Way: Protecting Safe Flight, One Repair at a Time, One Part at a Time.**

At Southwest Aerospace Technologies, we go above and beyond to provide exceptional airplane repair solutions, soaring above our customers' expectations, and pledge to meet the highest safety and performance standards.

**Our Mission Statement:**

To provide timely, cost-effective, and meticulous repair services and parts that ensure the safe return of aircraft to the skies.

To build lasting relationships with our customers founded on trust, integrity, and a shared commitment to excellence.

To embrace a culture of continuous improvement where our team members are empowered to grow, learn, and thrive in a supportive environment.

To drive industry advancements through our expertise, creativity, and passion for aviation innovation.

**Our Core Values:**

**Safety First:** We prioritize the safety of our customers, their passengers, and our team members in every aspect of our work.

**Without Compromise, Quality:** We strive for perfection in every repair, every time, to earn the trust of our customers and the industry.

**Attention to Our Customers:** We listen, we respond, and we deliver tailored solutions that meet each customer's unique needs.

**Teamwork:** We know that together, we achieve more, and we support an environment of open communication, mutual respect, and collective success.

With an emphasis on safety, worthiness, attention, and teamwork, we strive to be the go-to partner for aviation repairs and parts by embracing these values and staying true to our mission.
