HVAC Training Near You

LG US Air Conditioning Technologies offers world class education on their industry-leading solutions online and in person at their four training facilities in Georgia, California, Texas and New Jersey. Since 2008, thousands of students have been educated on LG's industry-leading air conditioning systems. World class trainers with years of experience teach air conditioning training classes in ductless, VRF, and controls solutions, with topics covering everything from installation to service for the full range of LG air conditioning products. LG also has over twenty partner academies throughout the United States.

Review our course catalog and calendar to see our current class offerings and schedule.
