**MUST HAVE 2 VEHICLES REGISTERED FOR POINTS SERIES FOR A CLASS TO HAVE POINTS SERIES IN THAT CLASS. Must have 3 entries for full points payout.**

**Points Series Rules:**

Cost \$30.00 for Stock Classes \$50.00 for all other classes (onetime fee). This entry fee is separate from the class registration entry fee.

You may sign up for the point series at any point in the season, but you will only be awarded points from the time you sign up for the point series to the end of the season. If you are not signed up for the point series, you will not receive points. You will not receive points for previous pulls if you were not registered for the points series that night of the pull.

All the pulls will be points series pull.

Must hook to sled and make attempt to move sled to receive finishing position points for that event.

Points will be based on the total number of vehicles that register for the series in each class. Not the total number of entries per event.

Points will be awarded only to vehicles registered for the points series in each class.

Points go to the vehicle not the driver- Vehicle may be driven by different driver at each event and still qualify for the points series.

The top finishing registered vehicle in each class will receive max points and will go down one (1) point for each registered vehicle in each class based on their finishing position at each event. The lowest finishing registered vehicle will receive one (1) point.

If at any time a registered vehicle does not make an event the points will still be awarded based on the original number of entries at the start of the series for that class.

All registered points series vehicles that have paid registration for the event shall receive 1 show up points for that event.

Nonregistered vehicles will not impact the points.

A win will be worth two (2) additional points toward the points series if that vehicle is registered for the points series.

If at the end of the points series, if there is a tie in the points in any class the tie will be decided by: The best overall finishing average position. Then the most 1<sup>st</sup> place finishes.

Example- if ten trucks register for the points series in a class the points would be awarded as follows:

10- highest finishing truck registered for points series.

- 9
- 8
- 7
- 6
- 5
- 4
- 3
- 2

1. Lowest finishing truck registered for points series(must hook to sled and make attempt to pull to receive).

**ANY REGISTERED VEHICLE THAT PULLS IN ALL EVENTS IN THE 2023 SEASON SHALL RECEIVE 5 ADDITIONAL POINTS AT THE END OF THE SEASON.**
