

In Self

To miss the direct interaction,
Is hard to believe

Coming from someone who loves to hide inside

In self-happiness
In self-sorrows
In self-sins

To some extent, it's somewhat of a relief

A much needed, self-therapy

While most people are dying of loneliness and feeling powerless
She's actually enjoying her laziness with perkiness

It's hard to believe
That she would miss the direct interaction
But she's feeling better than ever- somewhat mighty
