

## ***The Stranger Things***

Together we created the beautiful things  
and experienced the stranger things-  
Which the love life has to offer

He's the twelve reasons to my charms

I'm the eleven reasons he needs- to hold in his arms

The stranger things we saw  
Made a cringing imprint on our jaws  
So when we intertwine our palms,  
together we make each other calm

Overcoming the monstrous moments  
have created a stronger, clinging- bond
