

Two Faced

Me and him
Best friends and lovers to death
with her on double dates
Mall dates
Trouble-making dates
We were fun- playmates

Friendships I never thought to suspend
But her eyes were set on him
Two faced- double takes

Him, she slowly enticed

She lay with him bare
and into her glory- he was baptized

Even so, I'm not upset and don't care
You might be extremely confused
Just know, she was more important to me, than he
but he was more important to her, than me
