

Her Anger Games

She's a wratch

Stay away, don't try to intervene

Don't shower her in gasoline

Worst of all, don't be the one to light the match

Her anger, is explosive

Her anger, is corrosive

Her anger games, only she- tames

You'll cause a mad destruction

of a severe chemical reaction

With uncontrollable flames

Inhaling all her blames

You'll be the only one left

burned and mentally disturbed

with her arson mess- to clean
