

## ***American Dream***

Your favorite color is red  
My favorite color is blue

Together let's build our American Dream

You'll paint the stripes in white  
I'll paint the stripes in red  
We'll put the stars above our heads at night

We can both land a job  
A pretty home below the blue skies  
A white picket fence on a green lawn  
Dinner at the table  
With the TV on  
Make our own little baby crew

We'll one day- look back  
and be proud, that together we grew  
Into a couple that's strong

If that's not the American dream come true  
Then something in us, must be wrong
