

## ***Fires***

On the daily,  
He puts out strangers' fires  
While she too- puts out others' fires

Daily roles of fires, to patrol

But he's the only one of the two,  
That doesn't know she's better-  
at hiding the tracks of her tires

Both have the scent of burning fire  
Penetrated in their daily attires

But she's the only one of the two,  
That thinks she's better-  
at hiding what her daily activities, perspire
