

Ivory Bones

Society says,
Sit down and listen
Look good and glisten
and that is your job on this earth

Watch and learn
Then you'll earn

Be kind and populate humankind
It is your role to give birth

Who said only women should hurt?

YOU are the one- made out of dirt!

I am the one- birthed from ivory bones,
Meant to sit in your thrones
Crowned in precious stones

It is my turn
Watch and learn
Your turn to suffer
From society's forced anxieties
