

Played By Time

Time, she's zealous but jealous

Thanks to her-
You and I
Will never be-

It's been a future
That with each other,
We've never seen-

Years of dreaming
We'd travel the seas
Years of dreaming
We'd travel the lands

Together, holding hands

But I've come to realize
I've gotten played
By the hands of time

And that is whom- has always had,
The upper hand
