

## ***Where Are You***

Mother, Mother  
Where are you

Father, Father  
Where are you

I keep playing peek-a-boo  
But it's a game for two

I can't seem to find you in the stars  
Like you once said I would

The more I walk this path, the brightest star  
Keeps getting farther and farther

This awful loneliness with strangers  
Keeps getting harder and harder

You probably miss me  
I miss you too
