

## **Wind Chime**

It's been a longtime  
So to have you close  
In a place I could always visit  
I've named a star after you

Had to give myself an heirloom  
For the absence of your heartwarming love  
I always miss it

I picked the brightest one  
To make you my greatest exhibit

I wanted it to be the loudest one in the room  
Always ready for showtime

I picked the highest one  
I wanted to keep it far up high  
Out of harms way and out of crime

I feel your lovely spirit in the winds  
It's why I named your starry home, Wind Chime
