

Think Anixter for all of your communications and security solutions needs.

- Security
- Infrastructure
- Wireless

- Power and Thermal
- Data Center
- Professional Audio/Video

Build. Connect. Power. Protect.

# THINK ANIXTER

## SECURITY

- Access control systems/credentials
- Door locking hardware and key management
- Asset management and monitoring systems
- Cabinet level locking and biometrics
- Video surveillance systems
- VMS and analytics
- Mass notification
- Servers, storage and networking equipment
- Network and low voltage systems
- Racks, cabinets, UPS and PDU's
- Fire and life safety
- Intrusion detection and notification systems
- Emergency telephones/communications

## INFRASTRUCTURE

- Racks and cabinets
- Cable runway and raceway
- Fiber and copper cabling infrastructure
- Cable management
- Switches and routers
- KVM solutions
- Power and thermal solutions
- Tools and test equipment
- Building entrance protection
- Wireless
- Firestop
- DCIM software
- UPS systems
- Surge protection

## WIRELESS

- DAS
- Public safety DAS
- Small cell
- Broadband and microwave
- Outdoor macro
- RF conditioning
- Cable infrastructure
- Wi-Fi
- Antennas
- Cable assemblies
- Racks, cabinets and enclosures
- Coax and connectors
- Fiber and fiber hardware
- DC power systems

## POWER AND THERMAL

- UPS systems
- Rack and floor PDU's
- Surge protection
- Aisle containment
- Passive and active cooling
- Switchgear
- DC rectifiers
- Air dams
- Baffles
- Floor tiles
- Grounding and bonding
- Environmental monitoring
- Automatic transfer switches
- Tools and test equipment

## DATA CENTER

- Fiber and copper cabling
- Physical security solutions
- Busway
- Electrical infrastructure
- Environmental monitoring
- DCIM software
- Cabinet access control
- Aisle containment
- Lighting
- UPS systems
- Cable pathways
- Racks and cabinets
- Automatic transfer switches
- Rack and floor PDU's

## PROFESSIONAL AUDIO/VIDEO

- Digital signage
- Large format displays
- Projectors and screens
- Kiosks/enclosures
- Speakers
- Microphones and VOIP telephones
- Audio and video conferencing
- Amplifiers
- Clocks
- Power systems
- Control systems
- Signal distribution and switching
- Furniture, racks and mounts
- Mass notification
- Surge protection

## Build. Connect. Power. Protect.
