

Environmental Policy Statement

International Gas and Oil Trading Guyana Inc. is committed to protecting the environment and natural resources, promoting environmental stewardship, and implementing environmental practices. Our continuing Environmental Policy is to commit to achieving the highest environmental standards arising out of our activities. It is our intention through management leadership, employee participation, and professional environmental support to be at the environmental forefront of our Industry.

All managers, employees and contractors have duties and responsibilities under this Policy, and to ensure these responsibilities are met regular review of environmental performance will be carried out.

We recognise that protection of the environment requires commercial activity to be conducted in a sustainable manner and we remain committed to the prevention of pollution. We are fully committed to achieving best environmental practice and take responsibility across all of our business activities. We actively encourage interested Parties including our business partners and members of the wider community to join us in this effort.

IGOT Guyana Inc acknowledges these responsibilities and is committed to implementing the Environmental Management System and related actions stated by:

- Publishing our environmental policy
- Ensuring Management accepts ultimate responsibility for the achievement of the intended outcomes of this policy
- Including the requirements of this policy within our strategic business planning.
- Developing a comprehensive Environmental Management System, which ensures compliance with all Environmental Legislation, Regulations, Codes of Practice, and any other Standard to which the Company subscribes.
- Remaining committed to the prevention of pollution.
- Analysis of the environmental Aspects of our activities and evaluation of their environmental impact.
- The establishment of clear plans and objectives aimed at continual improvement in our environmental performance
- Development of suitable reviews including periodic auditing and management reviews.
- Implementing Training and Communicating programmes focused on ensuring our staff and contractors have the required knowledge and tools to prevent negative environmental impacts
- Ensuring that appropriate environmental Emergency Plans are in place throughout our operations

We recognise our key impacts and potential impacts to be in the areas of: Energy use, Office Waste Management and Disposal, Office Based Releases to Water, Utilities usage, Deleterious materials

We strive to manage these impacts at the same time meeting all relevant legislative requirements, through:

- Ongoing review and assessment of our activities thus identifying areas of environmental impact.
- Retaining our commitment to the prevention of pollution.
- Implementation of pollution prevention programmes along with waste minimization through careful and efficient use of all materials and energy, and adopting the principles of 'reduce, reuse and recycle'.
- Developing and implementing the Best Available Technology Not Entailing Excessive Costs (BATNEEC) Principles throughout our operations
- The purchase of sustainable products wherever feasible [e.g., recycled, Sustainable or low environmental impact products and energy from renewable sources].
- The training of employees in good environmental practice and the encouragement of Employee involvement in environmental action.
- The adoption of an environmental sound transport strategy.
- The reduction in risks from environmental, health or safety hazards for employees and others in the vicinity of our operations.
- The development of solutions for environmental problems.
- The inclusion of environmental and ethical considerations in investment decisions where appropriate.

The Environmental Management System will develop over time so that all key issues pertinent to our Company are continuously addressed. The Environmental Management System will reflect the Environmental Policy, Environmental Objectives and supporting programmes.
