**Act 278 of 1909**

**78.10 Annexation of entire village or township; incorporation of village from part of township; annexation of part of city, village, or township by village.**

Sec. 10.

Whenever an entire village or township is annexed to a village, the village to which it is annexed shall succeed to the ownership of all the property of the village or township annexed and shall assume all of its debts and liabilities, and whenever part of a city, village or township is annexed to a village the real property in the territory annexed which belongs to the city, village or township from which it is taken shall be sold by the authorities of the city, village or township in which said land was located before such annexation, and that portion of the proceeds of such sale shall be paid to the village acquiring such territory which shall be in the same ratio to the whole amount received as the assessed valuation of the taxable property in the territory annexed bears to the assessed valuation of the taxable property in the entire city, village or township from which said territory is taken: Provided, That no cemetery within such territory shall be sold; but to the extent it is owned by the city, village or township within which it was located, it shall become the property of the village to which it is annexed.

Whenever a new village is incorporated from part of a township or townships, such village shall be entitled to its pro rata share of the amount thereafter due such township or townships or due any county

agency in respect of population in such township or townships from any future distribution of state sales tax receipts, gasoline and motor vehicle weight tax revenues, intangibles tax revenues, state alcoholic liquor tax revenues, or any other state funds, moneys or grants which, by law, are required to be distributed among cities, villages, townships and/or counties of the state, which pro rata distribution shall be determined as follows, to wit:

(1) According to the last federal census prior to date of distribution but since such annexation, if there be such census, showing the respective population of the township or townships and the municipalities affected;

(2) In the absence of such federal census, an official special census shall be taken of that part of the areas of each township which form the newly incorporated village and of the balance of the area of such township or townships. Such census shall be taken by enumerators appointed by the secretary of state upon application by any one of the municipalities affected by such incorporation, which census shall be taken, as near as may be, in accordance with the provisions of section 6 of Act No. 279 of the Public Acts of 1909, as amended, the ratio of population between the areas incorporated from each township to form the newly incorporated village and the remainder of the respective township or townships from which the village was incorporated, shall be the basis for determination of the pro rata share of the state funds, moneys or grants to be distributed, and the township or townships from which such incorporated village is incorporated or the county agency receiving the funds, moneys or grants in respect of population in such township or townships shall be liable to the incorporated village for its proper pro rata share of any state funds, moneys or grants received by such township or townships or such county agency, respectively, after the date of incorporation;

(3) In the absence of a federal census and in lieu of an official special census determining the respective populations of the municipalities affected by such incorporation, the newly incorporated village and each township from which the same was incorporated, may agree, by joint resolution, as to the prorating between them and between the village and any county agency receiving state funds, moneys or grants in respect of population in such township or townships of any funds, moneys, or grants distributable by the state, a certified copy of which joint resolution shall be filed in the office of the secretary of state and shall be binding upon all parties affected by said incorporation.

Whenever a part of a city, village or township is annexed to a village, the village to which such territory is annexed shall be entitled to its proper pro rata share of any of the said state funds, moneys or grants thereafter distributable under the law to the city, village or township from which said territory was detached or to any county agency receiving state funds, moneys or grants in respect of population in such township or townships, determined as follows:

(1) According to ratio of population between the area annexed and the remainder of the township, city or village from which said area was detached, as determined by the last official federal or state census showing such populations;

(2) If there be no official census by which said respective populations can be determined, then a census shall be taken of the territory detached and the remainder of the territory in the township, city or village from which it was detached as provided above in the case of a newly incorporated village;

(3) In the absence of a federal census and in lieu of taking an official special census, the village to which said territory was annexed and the cities, townships, or villages from which said territory was detached, may agree by joint resolution of their governing bodies as to the prorating of any such state funds, moneys, or grants between them and between the village and any county agency receiving said funds, moneys, or grants in respect of population in such township or townships as provided above in the case of a newly incorporated village, a copy of which agreement shall be filed with the secretary of state and shall thereafter be binding upon all parties to said incorporation.

The foregoing provisions shall be used hereafter in determining the prorata distributions of any state funds, moneys or grants between townships and/or county agencies and any village which has become newly incorporated since the last decennial federal census, either before or after the passing of this law, and between townships and/or county agencies and any village which has annexed territory since the last decennial federal census, either before or after the passing of this law; but in no event shall the sharing of any distribution of state funds, moneys, or grants made previous to the effective date of this law be altered.

The indebtedness and liabilities of every city, village, and township, a part of which shall be annexed to a village, shall be assumed by the village to which the same is annexed in the same proportion which the assessed valuation of the taxable property in the territory annexed bears to the assessed valuation of the

taxable property in the entire city, village or township from which such territory is taken. Assessed valuations shall be determined in every division pursuant to this section from the last assessment roll of the city, village or township which has been confirmed by the board of review.

- (m) The exercise of each municipal power in the management and control of village property and the administration of the village government, whether the power is expressly enumerated in this act or not; an act to advance the interest of the village, and the good government and prosperity of the village and its inhabitants; and the making of ordinances that are necessary and proper for carrying into execution the powers conferred by this act, and other powers vested by the state constitution of 1963 in villages, except if forbidden by or if the subject is covered exclusively by the law of this state.
- (n) The sale and delivery of heat, power, and light outside the village's corporate limits in an amount determined by the legislative body of the village, except that a sale at other than wholesale shall be limited to the area of a city, village, or township that is contiguous to the village as of June 23, 1974, and to the area of any other city, village, or township being served as of June 23, 1974. **THE HOME RULE VILLAGE ACT (EXCERPT)**  
**Act 278 of 1909**

**78.26 Prohibited powers.**

Sec. 26.

(1) A village shall not do any of the following:

(a) Submit to the electors a charter or a revision of a charter more often than once in every 2 years or file it with the village clerk less than 90 days before the election. This subdivision does not apply to the submission and resubmission of charters to villages that may be incorporated under this act until they have first adopted a charter.

(b) Call more than 2 special elections within 1 year. This prohibition does not apply to elections that may be held in the submission and resubmission of charters to villages that may be incorporated under this act until they have first adopted a charter.

(c) Change the salary or emoluments of a public official after his or her election or appointment, or during his or her term of office, if the office is held for a fixed term, or shorten or extend the term of a public official from the period for which he or she was elected or appointed, unless he or she is removed for cause.

(d) Adopt a charter or amendment to a charter, unless approved by a majority of the electors voting on the charter or amendment at a general or special election.

(e) Authorize an issue of bonds unless approved at an election by a majority of the electors of the village voting on the issuance of the bonds. This subdivision does not apply to special assessment bonds, bonds for the village portion of local improvements, not to exceed 40% of the cost of the improvement, refunding bonds, bonds for relief from fire, flood, or calamity, or for payment of judgments, or bonds that the legislative body is authorized by specific statute to issue without vote of the electors.

(f) Adopt a scheme for exemption from municipal taxation.

(g) Repudiate a debt by a change in its charter or by consolidation with any other municipality.

(h) Incur indebtedness by the issue of bonds, or otherwise, in a sum that, including existing indebtedness, exceeds 10% of the assessed valuation of the real and personal property within the village subject to taxation, as shown by the last assessment roll of the village. Bonds issued in anticipation of the collection of special assessments, even though they are a general obligation of the village, motor vehicle highway fund bonds, revenue bonds, and bonds issued, or contract or assessment obligations incurred, to comply with an order of the department of environmental quality or a court of competent jurisdiction, even though they are a general obligation of the village, bonds issued, or contract or assessment obligations incurred, for water supply, sewerage, drainage, or refuse disposal projects necessary to protect the public health by abating pollution, even though they are a general obligation of the village, and bonds issued or assessments or contract obligations incurred for the construction, improvement, or replacement of a combined sewer overflow abatement facility are not included in this limitation. Money on hand in a sinking fund limited to the payment of indebtedness may be treated as a reduction of the indebtedness to that extent. If, because of fire, flood, or other calamity, an emergency fund is required for the relief of the inhabitants of the village or for the repairing or rebuilding of any of its municipal buildings, works, bridges, or streets, the legislative body of the village may borrow money due in not more than 3 years and in an amount not exceeding 1/4 of 1% of the assessed valuation of the village, notwithstanding that the loan may increase the indebtedness of the village beyond the limitations fixed by its charter or in this subdivision. If a village is authorized to acquire or operate a public utility, it may issue mortgage bonds for that purpose beyond the general limit of bonded indebtedness prescribed by law. The mortgage bonds issued beyond the limit of general indebtedness prescribed by law shall not impose a liability upon the village, but shall be secured only upon the property and revenues of the public utility, including a franchise, stating the terms upon which, in case of foreclosure, the purchaser may operate the public utility. The franchise shall not extend for a period longer than 20 years from the date of the sale of the public utility and franchise on foreclosure. Bonds issued, or contract or assessment obligations incurred, before July 31, 1973 are validated. As used in this

subdivision:

- (i) "Combined sewer overflow" means a discharge from a combined sewer system that occurs when the flow capacity of the combined sewer system is exceeded.
- (ii) "Combined sewer overflow abatement facility" means works, instrumentalities, or equipment necessary or appropriate to abate combined sewer overflows.
- (iii) "Combined sewer system" means a sewer designed and used to convey both storm water runoff and sanitary sewage, and which contains lawfully installed regulators and control devices that allow for delivery of sanitary flow to treatment during dry weather periods and divert storm water and sanitary sewage to surface waters during storm flow periods.
- (iv) "Construction" means any action taken in the designing or building of a combined sewer overflow abatement facility. Construction includes, but is not limited to, all of the following:
  - (A) Engineering services.
  - (B) Legal services.
  - (C) Financial services.
  - (D) Design of plans and specifications.
  - (E) Acquisition of land or structural components.
  - (F) Building, erection, alteration, remodeling, or extension of a combined sewer overflow abatement facility.
  - (G) Village supervision of the project activities described in sub-subparagraphs (A) to (F).
- (v) "Improvement" means any action undertaken to expand, rehabilitate, or restore a combined sewer overflow abatement facility.
- (vi) "Replacement" means action taken to obtain and install equipment, accessories, or appurtenances during the useful life of a combined sewer overflow abatement facility necessary to maintain the capacity and performance for which the equipment, accessories, or appurtenances are designed and constructed.
- (i) Lay or collect taxes for municipal purposes except as otherwise provided by law, at a rate in excess of 2% of the assessed value of all real and personal property in the village.
- (j) Issue bonds without creating a sinking fund for the payment of the bonds, except special assessment bonds that are a charge upon a special district created for the payment of the bonds, and serial bonds payable annually.
