The deposit will be refunded if cancellation is made within 72 hours of paying the deposit.

After this period, the deposit becomes non-refundable.

Rodent Proofing Warranty Information:

Follow-up appointments subject to availability and current schedule.

Minimum time between appointments is 2-4 weeks.

To book a follow-up appointment, please email us at Superatticsol@gmail.com or call our office (800) 674-4933.

Same day cancellation or "no-shows" will be subject to a \$50 cancellation fee.

Inability to pay the cancellation fee within 7 days will result in the cancellation of the warranty.

Warranty is subject to the following limitations: (1) Misaligned garage doors, including those that do not meet the ground, (2) Tiles roofs and or roofs that do not have plywood/any barrier installed underneath, (3) Any detached auxiliary structures, including but not limited to garages and sheds, and (4) Any damage done by the rodents or additional cleaning.

Rodent Proofing General Information:

Once Super Attic solution blocks entry points that rodents are/were using for access, the rodents might be (a) outside the house, or (b) hiding inside the house.

Noise after service may occur/get worse in the event rodents were hiding inside the house and can no longer exit.

It may take a minimum of 2-4 weeks for all remaining live rodents to get caught in the traps set by our team.

Super Attic Solutions' Recommendations:

Secure the perimeter of your home by trimming trees, bushes and anything else that can be used by rodents to gain access to your home.

Ensure timely removal of garbage and food items around the property to avoid attracting rodents closer to your property. Keep all food in closed containers and out of reach, raised from the ground.

Damages and Repairs:

Due to the nature of Super Attic Solutions' work, inadvertent damage to the property may occur. Clients are advised that they have seven (7) days to report any suspected damage to our team. Any claims made after this period will not be covered by Super Attic Solutions.

The client will make sure no fragile/expensive items are in the way between the front door and the Attic/CrawlSpace entrance to ensure a safe work environment.

Existing damage will be inspected at the beginning of the workday.

Any damage caused to old paint or old flooring material will be repaired to the best of our ability.

Any damage caused to wallpaper will be matched to the best of our ability.

PLEASE make sure to update our office at least 24 business hours before your project if you suspect either of these might become an issue during the project and we can provide a proper resolution on a case-by-case basis.

Any repairs performed by a 3rd party vendor must be approved before the repair is performed or will not be covered by Super Attic Solutions
