

- **FRTS Series: High performance fiber-reinforced thermosetting epoxy resins based composite materials.**
 - Prepregs (UD 、 3K Woven 、 Kevlar)
 - Composite plate (full UD 、 3K Woven/Kevlar)
- **rCFRTS Series: Recycled fibre-reinforced thermosetting resins**
 - Composite plate (full UD 、 3K Woven 、 carbon met or paper)
- **TF-FRTS Series: Thermostable Forming - high performance fibre-reinforced thermosetting epoxy resins based composite material**
 - Thermostable plate (full UD 、 3K Woven)
- **F RTP Series: Fibre-reinforced thermoplastic plate**
 - Fibre: Carbon (UD/Woven/forged) 、 Kevlar、 Glass fibre、 Flax、 Jute、 Nylon
 - Base material: PC、 PC(flame retardant)、 TPU、 PI、 PP、 PA
 - PC forged plate
- **CMA Series: Composite materials application**
 - Composite plate with sandwiched structure、 Composite of thermosetting and metal
- **Service (Develop / trial run production / Mass production) :**
 - Max size for plate : 1,000mm x 1,000mm
 - Max size for hot press forming: 750mm x 750mm
